Subject: RE: Comments to the MOA for the HAMP and the Hopi Villages

Importance: High

I know we will be talking about the draft MOA this afternoon, but I want to let you all know the stance of USEPA on blending for this particular system is that there will be NO blending allowed. As the regulatory agency, USEPA determines whether blending can be done or not. We can discuss why USEPA is not allowing blending to occur, but USEPA makes the final decision on the issue.

Attached are my comments to both the draft "HAMP MOA" and "Draft Service Agreement between the Village and HPUA" dated 4/22/13.

1:00 tomorrow will work for me.

John has indicated that 1:00 P.M. on Wednesday is OK for him. Any other takers? Also, for ease of information sharing, please respond to all parties on this email.

Can one of the PHX-based staff arrange for a conference call line to be available?

Brad

John,

How about just after lunch at 1:00 P.M. on Wednesday?

Brad,

I have another conference call from 9-10am tomorrow. Any other time Wed. is good.

I'll be out Thursday and Friday, back in the office Wed, 10/30.

John

Subject: Comments to the MOA for the HAMP and the Hopi Villages

All,

I have integrated all comments received to date from IHS and USEPA personnel regarding Bill Bettenberg's DRAFT MOA document for the Hopi Tribe and the HAMP Villages, the BIA and the BIE. Certain comments from the IHS side should probably be discussed before submittal back to Bill Bettenberg. Would you like to convene on a brief conference call for that purpose? Wednesday morning at 09:00 would be convenient for me in that regard.

Please advise.

Subject: Bessie's Coments to the MOA for the HAMP and the Hopi Villages

I took the version that had IHS' comments and added my comments. My comments are either in red or an orangish-brown, depending on what happens with you computer. I did a lot of editing and tried to make the agreement read more reader friendly. There also are also some clarifications about USEPA's authority and some of the rules and regulations under the Safe Drinking Water Act.

I also hoped I copied everyone.
